

Foster Community Plan

February 2026

Foster is a rural town 174 km south-east of Melbourne. It is on the South Gippsland Highway and 60 km north of Tidal River, Wilson’s Promontory. Foster has a population of just over 2,000. Foster is the service centre for the Corner Inlet District. There is a strong commitment to the natural environment, community and history.

We acknowledge the Traditional Owners of the lands on which this Plan applies and pay our respect to Elders past and present.

Facts about Foster

2,318

Population in 2024

1,066

Women

979

Men

Survey Results

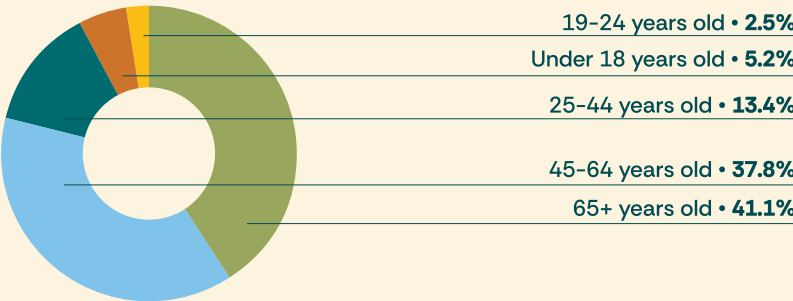

How we developed the plan

The community was consulted from August to November 2025 using several methods, including conversations with community leaders, service groups and residents in Foster.

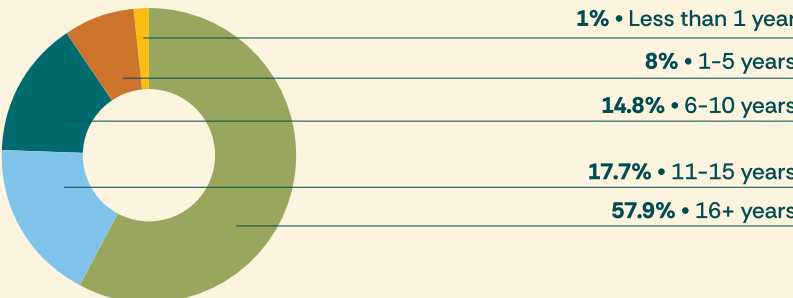

A Community Survey ran through September and received 210 responses – around 10% of Foster’s population. Findings from all engagement activities were shared at the Community Planning Event on 15 November 2025, where more than 270 people contributed additional ideas.

The survey was promoted through a letterbox drop, press releases and articles in the Prom Coast News (with over 2,100 readers). Engagement was also supported through the a Facebook campaign and flyer distribution.

38.83% want an Inclusive & Connected Town

Community Projects

Foster has many active community groups working on current and upcoming projects. A range of project ideas were suggested, with five projects having champions to move them forward.

Reactivation of Foster Community Assoc.

Actions Proposed
Create a committee and enact the Foster Community Plan

Project Partners
South Gippsland Shire Council

Benefit to the Community
A Community Association is the main voice for the community when talking to Council or the State Government. It can also support smaller community groups through auspicings.

Re-development of the Foster War Memorial Arts Centre (FWMAC)

Actions Proposed
The revitalisation of the arts precinct and a focus on a future redevelopment of the arts centre.

Benefit to the Community
The current building has a limited lifespan. It is timely to introduce a Master Plan for a new and inclusive space for the arts.

Project Partners
South Gippsland Shire Council, Regional Arts Victoria, RSL Victoria, Victorian Association Performing Arts Centres (VAPAC)

Install Shade Sails – Foster Pool

Actions Proposed
Raise \$60,000 through grant applications and fundraising

Benefit to the Community
Shade sails promote sun smart behaviours.

Project Partners
Foster Pool Committee, South Gippsland Shire Council, State Govt., Community

Revegetate Stockyard Creek

Actions Proposed
Support indigenous vegetation and remove invasive weeds

Benefit to the Community
Enhances the environment and reminds us of the importance of nature.

Project Partners
Corner Inlet Landcare, Catchment Management Authority, South Gippsland Shire Council

Colin Hall Pavillion

Actions Proposed
Construct an environmentally controlled space to house and display Foster’s history.

Benefit to the Community
This space is vital for storing archival items for future generations.

Project Partners
Foster Historical Society, Bendigo Bank, Rotary, Lions and the RSL
