

# Community Information Sessions

---

Woodside Energy and Gippsland Basin Joint Venture partner, Esso Australia Resources Pty Ltd are committed to the progressive decommissioning of the Gippsland and Bass Strait facilities safely and effectively.

After delivering energy to Australia for over 50 years, many of the Bass Strait oil and gas fields have reached or are approaching the end of their productive life. As planning for decommissioning progresses, we are focused on safely shutting-down non-producing facilities and ensuring they stay safe throughout the decommissioning process.
